

Sprint #2 Report- ArrowBerry

Actions to stop doing: The team should stop merging their own PRs. The team should make sure that tasks are clearly specified so there is no duplication of work.

Actions to start doing: The team should create unit tests for features that they are implementing.

Actions to keep doing: The team should keep consistently updating the rest of the team on their progress through their tasks. The team should continue to notify the team about issues affecting their ability to get their work done. The team should keep meeting after class every day and briefly discuss what they are working on and their next steps.

Work Completed:

1. Main App Functionality/Store and display data for Recipe Search (Read ingredients, visualize, and edit/add/delete entries): 6 points
 - a. As a forgetful person, I would like a 'digital pantry' page where all the ingredients I have can be visualized, so that I can be aware of what I have while I am not in my kitchen/pantry
2. Data Collection/Create webscraper to populate recipe database (Scrape, optimize, normalize, and write to database): 4 points
 - a. As a user, I would like to have multiple recipes so that I can spend my time doing more important things than finding recipes.
3. User Accessibility/Allow for recipe searching (Create category buttons and filter out results): 3 points
 - a. As a user, I want to be able to be able to refine my recommendations so that I can make a recipe more catered towards me.
4. User History/Add saved recipes and history section (Create favorite tag and save on profile): 6 points
 - a. As a user, I want the app to remember what i've made and uploaded so I can look back what I've historically made and bought

Work Completion Rate:

Total Story points - 19/19

Total number of estimated ideal work hours:, $15 + 10 + 8 + 15 = 48$

Total number of days in sprint: 14

Days per user story: 3.5

Work hours per day: 4 hours per day

Work hours per member per day: 1 hour per day
